Equation Group Cyber Weapons Auction - Invitation

!!! Attention government sponsors of cyber warfare and those who profit from it !!!!

How much you pay for enemies cyber weapons? Not malware you find in networks. Both sides, RAT + LP, full state sponsor tool set? We find cyber weapons made by creators of stuxnet, duqu, flame. Kaspersky calls Equation Group. We follow Equation Group traffic. We find Equation Group source range. We hack Equation Group. We find many many Equation Group cyber weapons. You see pictures. We give you some Equation Group files free, you see.

EQGRP Auction

This is good proof no? You enjoy!!! You break many things. You find many intrusions. You write many words. But not all, we are auction the best files.

AuctionInstructions

We auction best files to highest bidder. Auction files better than stuxnet. Auction files better than free files we already give you. The party which sends most bitcoins to address: 19BY2XCgbDe6WtTVbTyzM9eR3LYr6VtWK before bidding stops is winner, we tell how to decrypt. Very important!!! When you send bitcoin you add additional output to transaction. You add OP_Return output. In Op_Return output you put your (bidder) contact info. We suggest use bitmessage or I2P-bot email address. No other information will be disclosed by us publicly. Do not believe unsigned messages. We will contact winner with decryption instructions. Winner can do with files as they please, we not release files to public.

FAQ

Q: Why I want auction files, why send bitcoin? A: If you like free files (proof), you send bitcoin. If you want know your networks hacked, you send bitcoin. If you want hack networks as like equation group, you send bitcoin. If you want reverse, write many words, make big name for self, get many customers, you send bitcoin. If want to know what we take, you send bitcoin.

Q: What is in auction files? A: Is secret. Equation Group not know what lost. We want Equation Group to bid so we keep secret. You bid against Equation Group, win and find out or bid pump price up, piss them off, everyone wins.

Q: What if bid and no win, get bitcoins back? A: Sorry lose bidding war lose bitcoin and files. Lose Lose. Bid to win! But maybe not total loss. Instead to losers we give consolation prize. If our auction raises 1,000,000 (million) btc total, then we dump more Equation Group files, same quality, unencrypted, for free, to everyone.

Q: When does auction end? A: Unknown. When we feel is time to end. Keep bidding until we announce winner.

Q: Why I trust you? A: No trust, risk. You like reward, you take risk, maybe win, maybe not, no guarantees. There could be hack, steal, jail, dead, or war tomorrow. You worry more, protect self from other bidders, trolls, and haters.

ClosingRemarks

!!! Attention Wealthy Elites !!!

We have final message for "Wealthy Elites". We know what is wealthy but what is Elites? Elites is making laws protect self and friends, lie and fuck other peoples. Elites is breaking laws, regular peoples go to jail, life ruin, family ruin, but not Elites. Elites is breaking laws, many peoples know Elites guilty. Elites call top friends at law enforcement and government agencies, offer bribes, make promise future handjobs, (but no blowjobs). Elites top friends announce, no law broken, no crime commit. Reporters (not call journalist) make living say write only nice things about Elites, convince dumb cattle, is just politics, everything is awesome, check out our ads and our prostitutes. Then Elites runs for president. Why run for president when already control country like dictatorship? What this have do with fun Cyber Weapons Auction? We want make sure Wealthy Elite recognizes the danger cyber weapons, this message, our auction, poses to their wealth and control. Let us spell out for Elites. Your wealth and control depends on electronic data. You see what "Equation Group" can do. You see what cryptolockers and stuxnet can do. You see free files we give for free. You see attacks on banks and SWIFT in news. Maybe there is Equation Group version of cryptolocker+stuxnet for banks and financial systems? If Equation Group lose control of cyber weapons, who else lose or find cyber weapons? If electronic data go bye bye where leave Wealthy Elites? Maybe with

dumb cattle? "Do you feel in charge?" Wealthy Elites, you send bitcoins, you bid in auction, maybe big advantage for you?
